

Trustees Elected

Despite the exceedingly cold weather last Monday, election day, 192 people turned up at the polls to cast their vote for School Trustees. The following is the official count of the votes polled:

- (1) Berscht, John Valentine, 101.
- (2) Evans, Wilfred George, 117.
- (3) Liesemer, William George, 118.
- (4) McCoy, William James, 78.

Spotted ballots, 4.
Messrs. Berscht, Evans and Liesemer, have therefore, the honor of being elected and we feel sure are three very capable men for the position.

During the Lenten Season, Luther, an Lenten Services will be conducted at Danvers Chapel every Wednesday evening at 8 p. m. Themes: Feb. 14, The Savior Captured; Feb. 21, Peter's Denial and Repentance. A cordial invitation is extended to all. C. Nislin, pastor.

Meat Marketing

Editor, Pioneer.

Dear Sir,—The noticeable feature in the description of every convention was the delamination of the Farmers to concentrate their efforts on the Co-operative marketing of their own products. We in Alberta are mostly live stock men and it seems to be beginning to dawn upon us that there is something wrong besides the price we get for the different kind of live stock. For though the prices we have been paid vary all the way from virtually nothing for some kinds and very little for other kinds, we see and hear that the consumer by no means has our products presented to him. The farmers' wife got some 18c per lb. live weight for turkeys at Christmas. A dressed turkey could not be obtained under the per lb. in Calgary.

I myself have seen a bunch of good quality mixed chickens sold at a farmers sale for less than 25c per

hen, and friends in Victoria have written us that they were paying 40c per lb. for fowl. How does that strike you? That unreasonable spread between producers price and consumers price. Are we Western Farmers just incompetents that we cannot construct and operate a co-operative system for the disposal of our live stock?

I think I may safely say that nearly all the packing house kings started life as helpers around meat markets, and not ready made millionaires. Do all brains and ability belong to a by-gone age?

Some 500 of us farmers have taken shares in a Co-operatives Association for the disposal of our products, another bunch which also include many of those in the Co., have interests in an abattoir—

Does it not seem that a working arrangement should be encouraged at once between the two and a live and dead meat market opened as soon as possible for the disposal of our live stock at the best price and in the most advantageous manner possible, alive or dead, in Canada or elsewhere, cured, frozen, chilled or fresh, any old way. If the farmers worked the hosts of the C. E. A. they could be used to local for the collection and continue shipping of all kinds of live stock to the Farmers stock exchange to be disposed of in the best manner possible, live or dead. Which is best, to go on receiving unremunerative and lost full prices for our live stock? Go all together and obtain a larger share of the price between producer and consumer? Or go broke?

There are three choices for you. Boys, it's up to you.

Yours truly,

Dan Hazell

Explored the Rockies in Advance of Railroad

ONCE by one the pioneers of Canada are passing on and the ranks of the men who blazed the way into this or that remote region grow yearly thinner. The generation to whom it was given to first penetrate the Rocky Mountains and to seek out the routes which are to-day avenues of uninterrupted travel has all but passed and while for the eyes of others the Rockies still present a forbidding barrier, as untraveled as the primeval forests as splendid as any of its well-known wonders, it is to the men of this fading generation that Canada owes its greatest debt of gratitude. They penetrated the wilderness, and made the way for the pioneers who followed.

On January 26, 1881, at Vancouver, another of these men died in the city of Canada's first national railroad, the Canadian Pacific, as the corner stone of Canada's future, they found their way against almost insuperable difficulties and mapped the route for the men to travel over.

The call of the West with its adventure and opportunity was strong among the youth of Montreal of those days, and the old city gave freely of its best to the spreading of new Canada. Frank Armstrong was among those who went into the new country, and early in his career he was a member of the C. P. R. survey that, under the late Mr. Rogers, found the Rogers Pass through the Selkirk. One of the most interesting of the events in which he figured was connected with the finding of the Baple Pass through the Selkirk range in 1881. On this trip he accompanied his lifelong friend, the Hon. Fred Aylmer, of Richmond, and Major Rogers after whom the Rogers Pass is named. The engineering party wintered at Moberly Peak in 1882, and through a combination of circumstances suffered great privations. When things got most desperate Frank Armstrong volunteered to go south to Idaho on snowshoes with a toboggan to get food, and this adventure he successfully accomplished in the face of great difficulty. The Aylmer and Armstrong ranches on the upper Columbia river, near Wenatchee, were established in the early eighties. Frank Armstrong was the pioneer of steam navigation on both the lower Columbia and upper Kootenay rivers. When the railway was finally built through the first load of freight carried into the Columbia valley included boilers and engines for his steamships. These were built at Sorel, Que., and hauled across the continent. He was one of a party to go by canoe from Lake Windermere, the mother lake of the Columbia river all the way to Astoria at the mouth on the Pacific coast, the intention being to report on the navigability of that great stream.

At the close of the Rogers Pass

he offered his services to the British Government, although he was then 30 years of age. Later when war was declared against Turkey and the Mesopotamia campaign decided upon, he offered to ship these materials for a light draft steamer suited to navigating the Tigris, and engaged to have it put together in rushing order thirty days after its arrival. The offer was not accepted but later on he was called upon to take a number of experienced river men to England, and after having been tormented in the Mediterranean, he and his party reached Mesopotamia and Captain Armstrong did much good work in the organizing of navigation on the Tigris. He was later sent to Egypt to make improvements in the warlike navigation of the Nile. When a disaster of imperial service he suffered from the effects of the climate and never fully recovered. About three years ago he met with an accident which was complicated by a return of the complaint from which he had suffered in the East, and his death came without warning at a time when he seemed to be progressing favorably.

Captain Armstrong took a great interest in the last of the Thompson Memorial pageant presented last year at Lake Windermere, and being greatly beloved by the Indians he helped in the organization of the Indian part of the pageant. In 1880 he married Miss Margaret, daughter of Alfred A. Barber, of Montreal, and leaves two daughters, the Misses Margaret and Ruth Armstrong. The family, of which he is a member, has lived in Montreal for seven generations. His brother, L. O. Armstrong, the well-known lecturer, has been a life-long member of the C. P. R.

French Policy In Ruhr Is Veering Towards More Milder Methods

Essen. The French economic mission has decided to continue for the time being with the re-establishing of coal already mined and brought to the surface, diverting to France the cars already loaded and destined for the interior of Germany and permitting for the present the flow of re-establishing the mines themselves.

This decision was reached at a meeting of the economic commission at which General Simon presided. The meeting was called after all had been pooled, and Paris said that the word "re-establishing" mentioned in the French press was creating a bad impression abroad.

The realization that the French technical service in the Ruhr were still incapable to direct a tonnage of such magnitude, was also responsible in a measure in the adoption of the French plan. That the French policy in the Ruhr is veering towards milder methods is also shown by the announcement by French general headquarters that the "deliberate measures" would not be arrested, but would be simply suspended and tried before countervailing, leaving these countries to deal with them on their own.

"We will not alter them on any basis," said the French mission, "we will continue at headquarters."

MOTHER! MOVE CHILD'S BOWELS

"California Fig Syrup" is Child's Best Laxative

Even a sick child loves the "tasty" taste of "California Fig Syrup." It is the little stomach, it is upset, tongue coated, or if your child is constipated, full of food, or has colic, a long spoonful will never fail to open the bowels. In a few hours you can see for yourself how thoroughly it works all the constipation out of your child and waste from the tender little bowels and gives you a well, playful child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today, save a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has developed for babies and children of all ages put into bottles. Mother! You must say "California" or you may get an imitation Fig Syrup.

Britain's Living Cost Decreasing
London.—The cost of living index of Britain in December was down two points compared with the previous month's figures. This left it at 75 per cent, above the cost in July, 1914. At the beginning of last year the index was 92 per cent, above that of July, 1914.

WHO FIRST FELT

COCK-FIGHTING was born with the cocks.

But it is only 80 years ago that the first man felt "like a fighting cock!"

Now he has brothers, sisters, nephews, nieces, all over the world "all feeling like a fighting cock!"

It happens this way. A person has a bad cold, a headache, a heavy headache, takes Beecham's Pills just before going to bed. Immediately the Pills begin to harmonize the digestive and eliminative organs.

Consequently, this person has a good night's sleep and arises in the morning with clear brain, bright eye, keen appetite, full of energy for work and play.

It is now just 80 years since Beecham's Pills first began correcting disordered stomachs and stirring sluggish livers and bowels to natural activity, and feeling "like a fighting cock" is associated with an inseparably with Beecham's Pills, as the pills are with good health.

Would Organize The Farmers Of Canada Into A National Body

Calgary.—Tentative steps were taken by the United Farmers of Alberta towards the organization of a National Farmers' Council, presumably to supplant eventually the Canadian Council of Agriculture, and eliminate from membership the United Grain Growers Limited and the Saskatchewan Cooperative Elevator Company, which are represented in the Council of Agriculture.

There was a lengthy discussion, in which delegates emphasized the importance of the movement of some coordinating agency, political and economic, and in the end, the following resolution was adopted unanimously:

"Whereas the growth of the farmers' movement has now reached its national proportions; and

"Whereas there is great need for a body which will democratically coordinate all our federal, political, social and educational activities;

"Therefore, be it resolved, that we are in favor of an organization that should include representatives from the various farmers' provincial organizations, and we herewith authorize our executive to enter into negotiations with these organizations with a view to forming an association to be known as the United Farmers of Canada."

The return by proclamation to the Presidency of H. W. Wood for his eighth term was announced. Mr. Wood was given a very cordial welcome when the withdrawal of George Devington insured his return unopposed, and he spoke to the delegates before their increasing responsibilities and the necessity for serious thought, unless their work were to be useless. "The organized citizenship of Canada," he said, "has not to fight the united forces of partisan ship."

Learning Value of Vote

United Farm Women Are Realizing The Responsibility

Calgary.—In spite of the repeated decrease in membership of the United Farm Women's Association, the annual convention was amply attended by most enthusiastically delegates. The opening meeting was addressed by the Hon. J. H. Harty, minister without portfolio, who stated that the women of the farm helped in becoming depressed economic conditions, contrary to the few straws of blue that were beginning to show above the horizon. He called the plan of the Government to encourage poultry raising and the improvement of the dairy industry, stating that, if the hard times had done nothing more for the farmers of Alberta, they had opened their eyes to the necessity of the practice of mixed farming and more thrifty methods.

In the report of the President, Mrs. M. L. Scarce, it was stated that votes to some 60 seats made by her district. The past year had shown an awakening among the women members to their responsibilities as voters. This she attributed to the success of their movement in the recent election.

Mrs. J. L. Kidd, Secretary, reported a slight decrease in membership but a wonderful spirit of cooperation among the women's boards to keep their organization active.

Aimed At Barristers

Winnipeg.—Arising out of declarations of lawyers with trust funds in Winnipeg, Regina, Calgary and Vancouver, legislation will be sought at the forthcoming session of the legislature to have a closer hand kept on members of the legal profession handling trust funds. Predominance of farmer members makes passage of the bill certain.

Fear Steamer Lost

Diego, N.S.—A roll of charts, apparently from a steamer, picked up by fishermen at Whale Cove, gives rise to the belief that the steamer Britannia, of Pierre Head, New York, now given up for lost, may have foundered in the Bay of Fundy.

The French prairie crop of 1922 is almost a total failure.

Mother and Daughter Both Receive Benefit

Why Quebec Lady Praises Dodd's Kidney Pills

Madame Paradis, who Suffered with Dizziness, Neuralgia in Head, Chest and Limbs, tells of Relief She Got from Dodd's Kidney Pills.

"I don't tell you—(Special)—I have found in Dodd's Kidney Pills a veritable friend," says Madame Paradis, a well known and highly respected resident here.

"I was incapable of resting my head, which made me so ill at times I almost became unconscious. Four months I suffered day and night. I took 3 boxes of Dodd's Kidney Pills and returned to good health."

"My daughter also suffered from nervous sickness, and after taking Dodd's Kidney Pills found great relief."

"I shall tell of this remedy that saved my life, so that others might get relief."

Dodd's Kidney Pills act directly on the kidneys. They put the kidneys in condition to strain the uric acid out of the blood. With no uric acid in the blood there can be no rheumatism or neuralgia.

YOU GET THE AMOUNT OF THAT CHEQUE

We have made arrangements with the E. H. Heath Co. Limited who publish the CANADIAN FARMER where we are able to offer that farm magazine together with our own weekly at the one price for both papers.

The CANADIAN POWER FARMER is Western Canada's largest farm monthly. It is now in its twentieth year which means that it is thoroughly established throughout the West. It deals with the mechanical side of the farm. Every issue is full of helpful hints and references on the operation of all kinds of farm machinery from a windmill-machine to a tractor. Its editorial staff consists of men thoroughly familiar with every branch of farming both from the practical and theoretical standpoint. Every month the magazine publishes interesting news in lay language. Many of these are short and snappy and are of great value to farmers.

This offer may be withdrawn at any time. Without doubt your intention is to renew for this weekly, then why not take advantage now. Your subscription to the weekly together with a year's subscription to the CANADIAN POWER FARMER for the same price as this weekly alone. This is where you get the \$1.50.

Mail your cheque or drop into our office the first time you are in town.

PUBLIC NOTICE is hereby given that a meeting of the electors of the Municipal District of Westerdale No. 311 will be held at Westerdale, at one o'clock in the afternoon on the 17th day of February, 1923, for the discussion of the affairs of the district, and the nomination of candidates for the office of councillors for divisions 4, 5 and 6, and that such nominations will be there and then received from the hour of three o'clock until the hour of four o'clock in the afternoon.

A. McNAUGHTON,
Secretary-Treasurer M. D. 311.

A ladies rink composed of Miss E. Moyle skip, Mrs. P. Reed third, Mrs. A. Studer second and Miss P. Robb, or lead, against Mr. J. V. Basch skip, Mr. W. G. Lissner, Mr. J. E. Lissner and Mr. Harry Gabel on Wednesday afternoon and played to a tie game in twelve ends and beat the men on the thirteenth. This ladies' aggregation of fast rollers, which will complete in the Calgary Spiel next week.

SPRINGSIDE

Mr. Luke Collings was a visitor in Calgary over the week end.

Mr. Bryon Johnson took the noon train last Monday. I wonder what the attraction is in the south country?

Unfavorable weather conditions have delayed wood-hauling in the district.

Monts. Thomas and William Collings were the guests of Mrs. A. Phoebe last Friday evening.

How's baby coming Otto? Cheer up, it won't last forever.

Of late a number of young people of the district have been attending the Harmonian dances. Good times have been reported.

BEIGEN-NOUE VALLEY

We would desire to extend sympathy and love to Mr. Osmond and family, but words seem cold, formal, lifeless. "Blessed are the dead which die in the Lord from henceforth!" Yes, with the Spirit, that they may rest from their labors; and their works do follow them."

Do I need to remind you how, like Dorcas, she gave to the needy, and her works do follow her. So live, that when the summons comes to join the innumerable caravan which moves to that mysterious realm where each shall take his chamber in the silent halls of death, Thou go not, like the pauper, dazed at night, conscious to his dungeon, but, sustained and comforted by an infinitesimal trust, approach thy grave like one who wraps the drapery of his couch about him, and lies down to pleasant dreams.—"Threnologies"—Byrant

A young man, working at the lathe, had trouble with a horse with a tail, and he was soon on the road to the hospital with a broken leg.

Leonard Leigh of Zella has work at the mill.

Mr. Geo. Heston and brothers from Assiniboia are leaving tomorrow.

Mr. Haverstock School Inspector, 2nd Mr. Geo. C. Peattie of Olds, came out to Eldersburg S. D. 2595, and elected a Board of Trustees.

Mr. Ben Luthabaum, Chairman, Ira S. Gault, Sec. Treas., and Percy Blain first members. It is hoped we may have smooth sailing.

The mill force led a car-Ford by fire last week. It burned on the road near John Hare's place.

The mill is turning out about twenty-five thousand lath a day at present.
